Resource Tips for Art Teachers

Teachers are encouraged to adopt the following tips for the art activities given in this book.

Oil pastels or crayons are more suitable for young artists. The results are better, the colours are brighter and there is less mess.

Painting activities

Poster colours or powder colours can be mixed with liquid glue/gum or with starch to make thick paint. Similarly, they can be diluted with water to make thin paint.

Printing activities

- Trace the desired object on an ordinary sponge sheet and cut it with sharp cutter.
- During carving and cutting activities, make sure the children are supervised by an adult.
