About the Series

Computer Science series is a comprehensive computing course up to secondary level. This thoroughly revised edition is empowered with colourful pictures, illustrative diagrams, real-life examples, 'Chapter Overview', end-of-chapter 'Exercises', additional information in 'TitBits', 'Research Work' and a 'Glossary' of important terms. It introduces key concepts and provides information on major topics in a very clear and concised manner. It aims to promote technical competencies within the children. The language used in this set of books is simple yet easy to get into the mind of young learners.
